NECESSITY OF THE ORDER

This Order is issued based on evidence of increasing occurrence of COVID-19 within Denver, scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically, and evidence that the age, condition, and health of a significant portion of the population of Denver places it at risk for serious health complications, including death, from COVID-19. Due to the outbreak of the COVID-19 virus in the general public, which is now a pandemic according to the World Health Organization, there is a public health emergency throughout Denver and the State of Colorado.

Making the problem worse, some individuals who contract the COVID-19 virus have no symptoms or have mild symptoms, which means they may not be aware they carry the virus. Because even people without symptoms can transmit the disease, and because evidence shows the disease is easily spread, gatherings can result in preventable transmission of the virus. The scientific evidence shows that at this stage of the emergency, it is essential to slow virus transmission as much as possible to protect the most vulnerable and to prevent the health care system from being overwhelmed. One proven way to slow the transmission is to limit interactions among people to the greatest extent practicable. By reducing the spread of the COVID-19 virus, this Order helps preserve critical and limited healthcare capacity in Denver.
This Order also is issued in light of the existence of 148 confirmed cases of COVID-19 in Denver, as well as at least 591 confirmed cases and at least seven deaths in the State of Colorado as of 10:00 a.m. on Saturday, March 23, 2020, including a significant and increasing number of suspected cases of community transmission and likely further significant increases in transmission. Widespread testing for COVID-19 is not yet available but is expected to increase in the coming weeks. This Order is necessary to slow the rate of spread and the Executive Director, in collaboration with the Mayor, will re-evaluate it as further data becomes available.

INTENT

The intent of this Order is to ensure that the maximum number of people self-isolate in their places of residence to the maximum extent feasible to slow the spread of COVID-19 to the greatest extent possible, while enabling the continuation of essential services, businesses and travel necessary to protect public health and safety, and for the continuity of social and commercial life.

When people need to leave their places of residence, whether to obtain or perform vital services, or to otherwise facilitate authorized activities necessary for continuity of social and commercial life, they should at all times reasonably possible comply with Physical Distancing Requirements as defined in Section 6, below. All provisions of this Order should be interpreted to effectuate this intent. Failure to comply with any of the provisions of this Order constitutes an imminent threat and creates an immediate menace to public health.

ORDER

Hereby finding it is essential that the COVID-19 virus be slowed to protect the ability of public and private health care providers to handle the influx of new patients and safeguard public health, and because the risk of the rapid spread necessitates quick action to protect all members of the community, especially including our members most vulnerable to COVID-19 and also health care providers, this "STAY AT HOME" ("Order") requires all individuals anywhere in the City and County of Denver to shelter in place – that is, stay at home – except for certain essential activities and work to provide essential business and government services or perform essential public infrastructure construction, including housing.

Consistent with the Governor’s Executive Order declaring a state of disaster emergency, the Mayor’s declaration of local disaster emergency, CDC’s guidance, and pursuant to the authority granted the Executive Director of the Denver Department of Public Health & Environment in section 24-16 of the Denver Revised Municipal Code, the following is ordered:
1. All individuals anywhere in the City and County of Denver (“Denver”) are ordered to stay at their place of residence. To the extent individuals are using outdoor spaces, they must at all times as reasonably possible maintain physical distancing of at least six feet from any other person when they are outside their residence. All persons may leave their residences only for Essential Activities, Essential Governmental Functions, or to operate Essential Businesses, all as defined in Section 6, below. Individuals experiencing homelessness are exempt from this section, but are strongly urged to obtain shelter, and governmental and other entities are strongly urged to make such shelter available as soon as possible and to the maximum extent practicable (and to use COVID-19 risk mitigation practices in their operation).

2. All businesses with a facility in Denver, except Essential Businesses as defined below in Section 6, are required to cease all activities at facilities located within Denver, except Minimum Basic Operations, as defined in Section 6. For clarity, businesses may also continue operations consisting exclusively of employees or contractors performing activities at their own residences (e.g., working from home). All Essential Businesses are asked to remain open. To the greatest extent feasible, Essential Businesses shall comply with Physical Distancing Requirements as defined in Section 6, below, including by maintaining six-foot physical distancing for both employees and members of the public, including, but not limited to, when any customers are standing in line.

3. All public and private gatherings of any number of people occurring outside a single household or living unit are prohibited, except for the limited purposes as expressly permitted in Section 6. Nothing in this Order prohibits the gathering of members of a household or living unit.

4. All travel, including, but not limited to, travel on scooter, motorcycle, automobile, or public transit, except Essential Travel and Essential Activities as defined below in Section 6, is prohibited. People may use public transit only for purposes of performing Essential Activities or to travel to and from work to operate Essential Businesses, perform Minimum Basic Operations, or maintain Essential Governmental Functions. People riding on public transit must comply with Physical Distancing Requirements as defined in Section 6 below, to the greatest extent feasible. This Order allows travel into or out of the County to perform Essential Activities, operate Essential Businesses, or maintain Essential Governmental Functions.

5. Additionally, the Executive Director of DDPHE strongly encourages all Essential Businesses allowed under this Order to take all available practical measures to safeguard the particularly vulnerable population of individuals aged 60 and over by developing a schedule to establish separate hours of operation so that those individuals can patronize the businesses in a manner that insulates them from other members of the population.
